Forecast for Saturday 04 Nov 2023

Weather: Clear spells and scattered showers overnight, wintry on highest summits. A mainly dry and bright start with mist patches slowly lifting through the morning. Clouding over with some patchy rain, falling as wet snow above 900m, moving up from the south during the afternoon. Some uncertainty in its progress and many northern fells may stay dry until evening.

Chance of cloud-free hill tops above 800m: 40% becoming 70%, lowering to 40% again during the afternoon as rain moves north.

Low cloud and visibility: Mostly good visibility but some reductions in showery rain. Patchy cloud down to low slopes in the morning slowly lifting. Occasional cloud developing above 600 or 700m during the afternoon, mainly over southern fells.
